

ROONY JUMA WALWENDA

(Bachelor's Degree,

Information Technology)

BACKGROUND INFORMATION

A software developer with a growing interest in backend development and a developing skill set in full-stack technologies. Passionate about learning how information technology can be used in solving real world problems and improve organizational processes. Possesses practical experience in developing APIs that support scalable systems, optimizing database performance, and working with tools and technologies such as Docker, Git, Slack, Figma, Maven and Gradle to build, manage and deploy software projects. A solution-oriented developer committed to building reliable and maintainable systems while continuously exploring emerging technologies and adapting to the evolving demands of modern software development.

EXPERIENCE

1. **Backend Developer | Timbua GIS (SaaS Platform)**
   Agile Innovations Chapter II Aug 2025 - Dec 2025:
   Live Demo: https://timbua-portal.vercel.app/
   Figma Design: https://glade-sorbet-14947231.figma.site/
   Swagger API documentation: https://timbuabackend.onrender.com/swagger-ui/index.html

- Designed and developed RESTful APIs using Java Spring Boot and PostgreSQL for geospatial data management and material supplier sourcing.
- Implemented Spring Security with JWT for role-based access control (RBAC) supporting 3+ user roles.
- Containerized the application using Docker for consistent development and deployment environments
- Documented APIs using Swagger/OpenAPI for seamless frontend-backend integration.
- Led a research team of 4, identifying gaps in the construction industry and integrating verified data from KBRC.
- Outcome: Secured position 4 out of 23 teams with a certificate award.

2. **Backend Developer WinsFit (Health Tech Application)**
   Masinde Muliro University Jan 2025 - Apr 2025

   - Built a fitness and physiotherapy booking platform using **Java Spring Boot** and **MySQL**.
   - Developed RESTful APIs for user management, appointment scheduling, and exercise tracking.
   - Integrated real-time exercise tracking between React frontend and Spring Boot backend.
   - Designed optimized SQL queries for handling user data and appointment history.
   - Outcome: Delivered a fully functional MVP within a 12-week academic sprint.

3. **Junior Backend Developer (Industrial Attachment)**

GikTek Ventures May 2024 - Aug 2024

- Developed RESTful APIs for a visitor booking and parking reservation system used by banking clients.
- Designed and implemented error handling and logging mechanisms, improving system resilience.
- Led the backend-frontend integration as the team lead
- Automated manual customer scheduling tasks, projecting a 40% improvement in service quality.
- Participated in sprint planning, reviews, and daily stand-ups in an agile environment.
- Developed a fully functional system with containerization using docker

4. **Help Desk & Support Team Lead**
   Masinde Muliro University – Intensive Industrial Training
   From May 2022 – August 2022

- Led 5-member team providing technical support to 30+ users on Microsoft Office (Excel, Word, PowerPoint) and basic troubleshooting.
- Repaired and cleaned desktop computers, monitors and keyboards
- Did networking on the three computer labs connecting switches and router settings
- Trained 5+ staff members on IT systems and security protocols

SKILLS

Backend Technologies

- Java, Spring Boot, Spring Security, JWT, RESTful APIs
- Microservices Architecture

Databases: PostgreSQL, MySQL
Database design, query optimization, data integrity

DevOps & Tools

- Docker (containerization)
- Git, GitHub, Maven, Gradle
- Swagger/OpenAPI for API documentation

Frontend

- React, Leaflet.js

Others

- Cloud Computing Fundamentals
- Cybersecurity Fundamentals
- Generative AI

EDUCATION

BSc. Information Technology
Masinde Muliro University - Kenya
from 09/2021 - 05/2025

- Bachelor's degree in Information Technology graduated on December, 2025

Kenya Certificate of Secondary Education
Chianda Boys High School
From 01/2017 – 11/2021

- Mean Grade: B+ of 71 points

PROFESSIONAL COURSES

Generative AI Training conducted by Open University of Kenya (OUK) in Collaboration with University of Michigan

From August, 2025 – November, 2025

Digital Skills Conducted by the ICT Authority, Kenya in collaboration with KICTANet
from 03/2025 - 03/2025

- certificate of completion award

IBM Online Training AI, Cybersecurity, Cloud Computing, Web development
From 01/2022 - 03/2022

HOBBIES AND INTERESTS

- Writing poems
- Singing
- Open forums contributions

REFEREES

1. Mr. Oliver Ochieng
   CEO, GikTek Ventures Company.
   Contact: +254721976179
